

Connector Compensation Plan

v1.2.1 | EFFECTIVE SEPTEMBER 5, 2026

How Connector Sponsorship Works

A Connector is a Real Estate Professional or Everyday Champion who joined Afford Amp to help people discover opportunities they may not have known were available. When a Connector, such as Pat, sends his attributed Join Afford Amp link to Chris and Chris joins as a Connector with that link, then Pat is the Sponsor of Chris.

How Customer Sponsorship Works

A Connector creates a Customer Connection when they connect a Homebuyer, Home Seller, or Homeowner with Afford Amp. A Customer Connection can be a Homebuyer Connection, Home Seller Connection, or Homeowner Connection.

A Connector becomes the Sponsor of a:

- Homebuyer Connection when the Homebuyer starts their application with PRMI.
- Home Seller Connection when the:
 - Home Seller or Listing Agent approves an MLS Listing Public Remark about PRMI down payment assistance.
 - AND an Afford Amp Yard Sign is displayed at the Home Seller's property.
- Homeowner Connection when the Homeowner starts their application with PRMI.

How Compensation Works

Compensation is NOT based on a real estate sale or mortgage transaction.

Compensation is based on Afford Amp's program rules, payment policies, and applicable requirements for a Qualified Transaction.

A Qualified Transaction is an eligible energy upgrade transaction fully paid with funds from PRMI home financing or with cash.

The Connector who is the Sponsor of a Qualified Transaction is the Contributing Connector of that Qualified Transaction.

COMPENSATION STACK

EVERY QUALIFIED TRANSACTION (QT) CREATES A \$3,000 COMPENSATION STACK.

- **THE CONTRIBUTING CONNECTOR GETS AT LEAST \$1,500**
- **THEIR SPONSOR GETS \$250 ON QUALIFIED TRANSACTIONS 1 THROUGH 6**
- **THE REST PAYS BONUSES OR IS SET ASIDE FOR REWARDS**

WHERE THE \$3,000 GOES

Find the Contributing Connector's QT number. Count every QT since the Connector joined Afford Amp. The middle column shows who is paid for the QT. The next column shows what Afford Amp sets aside for rewards.

QT Number	Paid for the QT	Set Aside for Rewards	Total
1 or 2	Contributing Connector: \$1,500 Their Sponsor: \$250	Marketing Tool Credit Budget: \$300 Pacesetter Bonus Pool: \$900 Performance Awards Reserve: \$50	\$3,000
3, 4, 5, or 6	Contributing Connector: \$1,750 (\$1,500 commission + \$250 Dynamo Bonus) Their Sponsor: \$250	Pacesetter Bonus Pool: \$900 Performance Awards Reserve: \$100	\$3,000
7 through 20	Contributing Connector: \$2,000 (\$1,500 commission + \$500 Powerhouse Bonus) Their Sponsor: \$0	Pacesetter Bonus Pool: \$900 Performance Awards Reserve: \$100	\$3,000
21 and following	Contributing Connector: \$2,000 + SPIF (\$1,500 commission + \$500 Powerhouse Bonus) Their Sponsor: \$0	Pacesetter Bonus Pool: \$900 Performance Awards Reserve: \$100	\$3,000 + SPIF

PERFORMANCE REWARDS AND AWARDS

How Performance Rewards Work

More ways to earn as you produce and help your team grow.

Part of each \$3,000 stack pays for rewards. Some rewards are paid with the QT. Other rewards are earned later. Afford Amp checks every reward before it is paid.

1. MARKETING TOOL CREDITS

You earn \$30 in Marketing Tool Credits for each of the first 10 of your Customer Connections that reaches the PRMI App Completed stage. That is an extra \$300 for your marketing budget.

2. DYNAMO BONUS

Afford Amp counts all your QTs from the day you join. You earn a \$250 DYNAMO BONUS on QT 3, QT 4, QT 5, and QT 6. This is added to your \$1,500 commission. You receive \$1,750 for each of these QTs.

3. POWERHOUSE BONUS

You earn a \$500 POWERHOUSE BONUS starting with QT 7. This is added to your \$1,500 commission. You receive \$2,000 for QT 7 and every QT after it. Your Sponsor no longer gets the \$250 Sponsor Commission.

4. SPIF

SPIF is still being developed. Afford Amp has not decided what the SPIF will be, how it will be calculated, or where the money will come from. No SPIF is promised or earned until Afford Amp approves and publishes the final rules.

5. PACESETTER BONUS

The Pacesetter Bonus is still being built. Afford Amp plans to release the rules in October 2026. The first calculation is planned to count approved work done in September 2026.

Work done in September does not guarantee a bonus. A Connector must follow the final rules. The Connector must also be in good standing. Afford Amp must check and approve the bonus before it is paid.

6. PERFORMANCE AWARDS RESERVE

Afford Amp saves \$50 from QT 1 and QT 2. It saves \$100 from every QT after that. This money is not paid right away. It does not belong to one Connector. Afford Amp will publish rules before it uses this money for awards.

7. MEMBERSHIP UNIT AWARD

Membership Units give a person part ownership of Afford Amp. This award may give a Connector Class B Membership Units. Class B Units do not give voting rights. The units are not cash. The money does not come from the \$3,000 Compensation Stack or the Performance Awards Reserve. Afford Amp will share the final rules after legal counsel approves them.
